Brookline Village OBGYN provides information about different genetic screening options. Unfortunately, in this increasingly complex world of health insurance coverage, the growing number of high deductible plans, and the constantly changing testing options, Brookline Village OBGYN cannot estimate or predict the costs of these tests. Links to the above tests and their contact information are on the website, on the Obstetrics page. Reaching out to these test providers will give you better information on whether or not your insurance will cover it, what your insurance will pay and what you personally will have to pay.

AGREEMENT REGARDING GENETIC TESTING BILLING I recognize that it is MY responsibility to research the specific cost I will incur from any and all genetic test specimens, taking into account my deductible, co-insurance and copay commitments from my insurance plan. Brookline Village OBGYN cannot and will not assume this responsibility, and any bills I get for any of the tests, are my responsibility to resolve. If I receive an invoice from these laboratories, I will contact them directly to handle any billing issues. Brookline Village OBGYN will not handle any billing problems for this testing.
